The presumption made by the S.E.&S.C. in paras 3 and 4 of his letter under disposal may be confirmed.

2. It may be pointed out that there is an acute shortage of technical personnel all over. If, however, overseers are available in some Circles they may be transferred to Circles where there is a shortage. Sub-overseers should not be reverted to the posts of Maistries and Karkuns except when it is absolutely necessary to do so. This would defeat the very purpose of the sub-overseers' Training Class. Therefore, if there are surplus overseers in any Circle the S.Es. may be requested to report the matter to Government so that arrangements can be made for their transfer to dificit Circles.

E.B.(II). P. W. D.

Submitted with reference to G.L. No. 2951/48-E(II), dated the 7-8-1950.

2. The consolidated statement of the information received from all the local Officers, will be found at p. 9 ante. It will be seen therefrom that there are vacancies of overseers and Jr. Engineers (Civil) in many circles. The S.E.,S.C., in his letter No. G-40, dated the 15-7-50, states that it is necessary for him to revert some of the sub-overseers to the post of maistries and karkuns. If these persons, whome the S.E.,S.C., intends to revert are transferred to other circles where there are vacancies of overseers and Jr. Engineers (Civil), they can be appointed as sub-overseers in the post of overseers. The point is, however, for orders.

3. The S.E.,S.C's presumption that a sub-overseer, when reverted to the post of a maistry, will draw the pay of maistry and not of Sub-overseer, may be confirmed.

Id/-
4-4-51.

Before taking further action, we may again ascertain from the Officers concerned that the number of vacancies, as shown in the last but one column of the statement at p. 9 exist even now. Only address express letters to the officers against whose names the vacancies appear. C.E.E.G. may further be asked to stated if the 33 vacancies are all of Junior Engineers (Civil) or some of them are of Junior Engineer (Electric and Mechanic) also and if so how many vacancies exist for Junior Engineer (Civil).

No. G-40. Public Works Department,
BELGAUM: 15th July 1950.

Subject: Absorption of Sub-overseers against the sanctioned posts of maistries.

Reference: Government Letter No. 6846/36-(i)-V-E(II) dated the 22nd January 1948.

2. In para 2 of the Government letter quoted above, it has been stated that the candidates (both outsiders and Departmental men) who passed the Sub-overseer's course should be appointed" as Sub-overseers", against the sanctioned posts of overseers, surveyors, sub -overseers and maistries, permanent, temporary or work-charged.

3. When appointed against the sanctioned posts of overseers or surveyors, they are allowed the pay of the sub-overseers' scale. The question, however, arises when a Sub-overseer is reverted as a maistry whether he should get the Sub-overseer's pay or the maistry's pay. The point is not clear from doubt.

4. Upto this time the Sub-overseers were appointed against the sanctioned posts of overseers and surveyors, but in view of the availability of qualified hands and of the retrenchment to come, it is necessary to revert some of them in the sanctioned posts of maistries and even in some cases they are required to be reverted to their original posts of Mustering Karkuns.

In such case it is presumed that they will get the pay of the posts viz: Maistries or Karkun's as the case may be and not that of the sub-overseer. The ~~presumtp~~ presumption may please be confirmed.
